A veritable reminder of the Arsenal, this art and history museum evokes maritime life in Toulon from the 18th century to the present day, the history of the arsenal, shipbuilding, the galleys and the penal colony, and the evolution of ships in the Mediterranean from the 17th century to the present day.

## MOUNT FARON

A listed site rising to 584 meters above sea level, Mount Faron is one of the jewels of our natural environment, with a 1,100-hectare forest including 376 hectares of communal forest. At the summit of Mount Faron is the memorial of the Provence landings.

## ARTS STREET

Located in the heart of Toulon's historic center, you will find many small shops in the Arts street, offering something you won't find anywhere else in the city.

## TOULON HARBOR

"The most beautiful harbor in Europe" according to Vauban. The harbor is surrounded by high white limestone hills where umbrella pines perch, contrasting with the blue of the sea.
